## REPORT ON INSPECTION AND ANALYSIS OF COMMERCIAL FERTILIZERS

1969

#### J. Gordon Hanna, Chief Chemist

Listed in this report for 1969 are the manufacturer's names, the number of samples of the products of each manufacturer collected, the number of these samples found deficient and the ratios of the percentages of nitrogen, phosphoric acid, and potash found to the percentages guaranteed. Results of 354 samples of fertilizer produced by 102 manufacturers are summarized. A table of the tonnage sold during the period between July 1, 1968 and June 30, 1969 is included.

Analyses were made by Messrs. R. A. Botsford, S. P. Squires, W. Glowa, R. E. West, Miss H. Kocaba and Mrs. J. A. Pierson. Inspection and sampling were by Mr. R. R. Nichols.
